Important News

التدخل.. INTERVENE
الالتزام.. الاحترام. COMPLY. RESPECT.

Safety day provides a great opportunity for staff to engage and discuss ways to improve their safety performance. Since it was introduced in 2007, many fundamental topics were featured and this helped raise awareness across the organization.

Looking at the past performance statistics of safety, it was evident that more focus was needed to get the 'BASICS' right. As a result, we embarked on a journey to get the fundamentals of HSE 'Golden Rules' (Comply, Intervene & Respect) embedded into our work culture. So 2014 was dedicated to 'Comply', the first pillar of the Golden Rules.

What You Need to Know

Why Intervene?:

We intervene because:

- We care for each other
- To save lives and prevent injuries
- To create a safer working environment.

When to intervene?:

Whenever we observe an unsafe act or condition. Remember it is your right, your responsibility to intervene because we care for each other.

Did you intervene?:

Although intervention is difficult, we have received amazing stories on intervention at work and away from work from your feedback. Keep up the good work and continue to intervene when needed.

This year, 2015 Safety Day theme focuses on 'Intervene' the second pillar of the Golden Rules which is essential to our lives and our business. PDO Managing Director, Raoul Restucci said: "I know it's not easy, it takes courage. Sometimes you receive push-back, and some colleagues may even say "It is none of your business" but it is, it's your right, your responsibility to intervene because we should all care." The sessions conveyed useful tips on how to successfully intervene, by pointing out the risk, and also discussing financial and environmental consequences of their actions carefully, in a polite, positive and respectful manner.
