Class B	003263

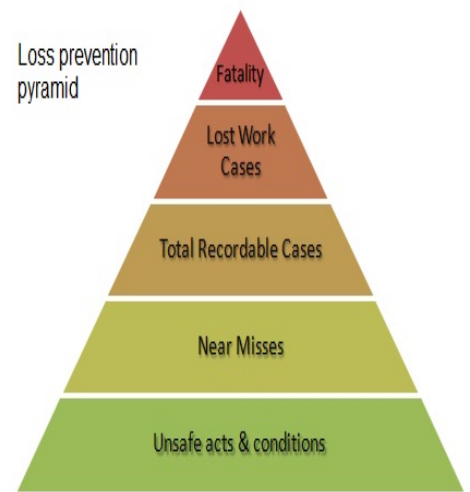

HSE TIP

Reporting of incidents
 PDO aims to maintain a safe and healthy working environment by correcting situations that caused or could likely cause injury or damage. When an incident occurs, it is important to report the occurrence so corrective actions could be taken to make sure that a similar or more serious incidents do not re-occur. An incident is defined as "an unplanned and undesired event or chain of events that have, or could have, resulted in injury, illness, damage to assets or the environment."
